IMEA Announces Opening of Permanent Training Center at St. Joseph's College Campus

The Indiana Municipal Electric Association (IMEA) is proud to announce the opening of a permanent training center located on the campus of St. Joseph's College in Rensselaer, Indiana. This dedicated facility marks a significant step forward in advancing IMEA's training programs, supporting both current needs and the long-term development of Indiana's electric utility workforce.

The new site includes leased classrooms, a training field, and on-campus apartment housing to accommodate apprentices and extended lineman training sessions. To ensure smooth coordination ahead of the build, Duane Richardson hosted a virtual meeting with all volunteers, helping lay the groundwork before construction began. With materials arriving on-site and the strong support of volunteers from IMEA member communities, construction of the training field is now underway.

We extend our heartfelt gratitude and recognition to the following IMEA member utilities for their invaluable contributions during "Build the Field Day": Rensselaer, Bremen, Argos, Columbia City, Frankfort, Mishawaka and Auburn. Your dedication and teamwork are helping build a stronger future for Indiana's municipal electric systems.
